IMPROVEMENTS WANTED

Pointers that indicate the General Feeling of the people

GOOD ROADS—MORE BRIDGES

Mr. J. A. Diddle, of Gradyville, expressed himself on the road and bridge proposition as follows: I am in favor of the county buying a stone crusher and making roads instead of doing patchwork. I feel certain that a move of this kind would result in great good to the county and meet the approval of our heaviest tax payers. I am heartily in favor of good roads and am willing to join in the move. I understand that a few more bridges are needed and I want it understood that I do not believe in doing without them. Our bridge at Milltown is worth a great deal to our section and demonstrates the wisdom of our magistrates in pushing such improvements. I am for road and bridges and hope our fiscal court will take up these propositions and make lasting improvements.

Mr. J. N. Coffey, are you in favor of better roads and more bridges? "Yes, if there is a man in the county for such improvements, you may say that it is Newt Coffey. The lack of these things is expensive and a severe check to our county. I favor a bridge at Neatsville and am willing to be taxed to secure it but as it would not be of direct benefit to me, I hardly feel like making an outside contribution, but should necessity arise, guess I would do that rather than see it fail. I am willing to have our county take a progressive step in these matters. A rock crusher is badly needed and with the grader and crusher in use we would soon have some good roads. I hope the County Court will be progressive in these matters. Tax the people and make the improvements."

Mr. W. H. Flowers, of Bliss, stated: I am for a rock crusher and hope the county will buy one and put it to work at once. Our roads are fearful and until stone is applied, can not be much better in winter. I am heartily in favor of bridge building until all sections of the country are tied together. There is no doubt as to the worth of such improvements and I hope that our Fiscal Court will take up the bridge and road propositions and push them to completion. Instead of low tax and bad roads I prefer a high tax to secure these improvements.

Mr. W. F. Jeffries states: I am in favor of a bridge at Neatsville, or at any other place where one may be needed. I realize the worth of such improvements and this matter has been too long delayed. The bridges ought to be built. There is no stronger believer in good roads than myself and I believe that the proper course for our county is to purchase a stone crusher and put it to work as early as possible. The people want improvement and are willing to pay the bill.

Mr. W. R. Williams states: I am in favor of building a bridge at Neatsville. It is badly needed. I also favor building at other places. As to roads, they need stone and I know of no better way than to purchase a crusher. Now is the time to begin this work. The roads ought to be taken out of the branches and creeks and the grader and stone crusher put to work.

Mr. V. Bryant was in town Saturday and in conversation stated that the strongest evidence of the need of a rock crusher, could be secured by a trip up the Stanford road. Mr. Bryant is in favor of the county buying and operating a rock crusher and also believes that more bridges should be built.

Mr. N. B. Chapman, on the Stanford road, expressed himself as against the building of more bridges or the purchase of a stone crusher, believing that the county is unable to do these things.

M. & F. PUPILS' RECITAL.

Large Audience Present—Program Greatly Enjoyed.

A large audience composed of patrons and friends of the school and students, heard the Pupil's Recital at the Presbyterian church last Friday evening.

The Recital was successful in every detail. It was varied in character and each number of the program elicited spirited applause which attested its excellence.

There is no doubt as to the amount and kind of work that Mr. Ohlenmacher requires of his pupils. He has fully demonstrated the fact that he is a talented teacher as well as performer, and the people of Columbia should feel honored to have such a teacher in one of their schools. The M. & F. should certainly endeavor to engage his continued services.

Considering the amount of technical work Mr. Ohlenmacher requires with each lesson, the program of his pupils was remarkable. The musical talent displayed by numbers of the students was noticeable, and is a cause for congratulations to both teacher and pupil.

The music class was assisted by Miss Margaret Taylor, teacher of expression, who deserves special mention for the manner in which she completely captivated the entire audience. Miss Taylor, as a reader and teacher, has few equals in this part of the State.

You can buy any suit of clothes men's or boys, or ladies or misses cloaks in my stock, at a bargain. W. L. WALKER.

AN EVENING OF ENJOYMENT.

Governor Hindman Lectured and The Band Made Music.

The lecture by Governor J. R. Hindman in the chapel of the Lindsay-Wilson last Thursday evening, was a great treat to the many students of the institution, as well as the many visitors, who were drawn there by their admiration of the speaker. The large hall was well filled and Governor Hindman entertained in a speech of an hour's length, which at times bubbled over with humor and sparkled with wit and logic throughout. The Columbia Band furnished the music, rendering several pieces in a highly entertaining manner, both in the introduction and closing of the programme. The real force of the lecture was directed to the young people, and throughout, contained precepts that mark the way of progress, refinement and happiness.

Viewed as a whole, the entertainment was one of a high order, and calculated to do much good, as well as furnish enjoyment to those who are burning the mid-night lamp in the pursuit of knowledge.
